

Van Wert Health
Hospital Patient Price Information List

In compliance with state law, Ohio Revised Code Section 3727.12, Van Wert Health(VWH) is providing a price list containing the most common charges for services in the following areas:

- Inpatient Nursing Care
- Emergency Department
- Surgical Center
- Physical Therapy
- Occupational Therapy
- CardioPulmonary Services
- Medical Imaging
- Laboratory

The hospital's charges are the same for all patients, but a patient's responsibility may vary, depending on payment plans negotiated with individual health insurers. Please see the information on our website at www.VanWertHealth.org, regarding billing policies and free/discounted care.

The price list is an estimate of charges for the procedure/service without complications. This list, unless specified differently, does not include physician fees or charges for any additional tests ordered for your care. Your final bill will include charges for the actual services provided to you. For questions about your financial obligation, we encourage you to contact your insurance company to verify details of your coverage.

Inpatient Nursing Care

Room Charge per Day

Routine Care	\$991.14
Intensive/Coronary Care	\$2,568.26
Obstetrical Room Rate	\$1,634.35

The laboratory has a menu of specific tests that patients may order for themselves (direct access testing). These tests are general health screening tests such as would be found at a health fair such as health panels and lipid. Like health fair tests, these tests are offered at a considerable discount, but must be paid for prior to blood draw.
